1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

No basis is seen in the specification for the limitation in claim 1, lines 1 and 2 wherein the subterranean zone penetrated by a wellbore “comprises interstitial water”.

Also, no basis can be found for the degradable material comprising “poly(phenyllactide)”, as set forth in claim 14.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13, 14, 31, 32, 51 and 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 13, 14, 31, 32, 51 and 52 recite the limitation "the degradable material" in line 1 of each claim. There is insufficient antecedent basis for this limitation in the claim. It appears that -- the degradable particulate -- was intended.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references discloses processes of treating a subterranean formation penetrated by a well(s) including the use of a temporary plugging or diverting agent injected in conjunction with a treating fluid, and which diverting agent may be subsequently removed from the formation and/or well.

Art Unit: 3676

6. Claims 13, 14, 31, 32, 51 and 52 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
7. Claims 1-12, 15-30, 33-50 and 53-60 are allowed.
